Montana and Wyoming Executives Won't

Honor Each Other's Requisitions. CHEVENNE, Wyo., April 11.—Governor Osborne has refused to honor a requisition issued by Gov. Rickards of Montana for Thomas J. Wherry, charged with assault with intent to kill, because of irregularities in the papers.

Wyoming's governor took occasion to write a sarcastic letter to Gov. Rickards, because the latter once refused to give up a murderer because he feared the man would be lynched in Wyoming.

FIERCE GALES.

Sweep the New Jersey Beach-Worst Known in Eleven Years.

HIGHLAND BRACH, N. J., April 11 .-This morning a vessel went ashore off Highland Beach.

At least eight men were drowned. Six went down with the bowsprit, one swam ashore and stood up in the undertow, but was knocked down and carried back into the sea and lost. One man went down with the mast and held on to a rope for nearly half an hour, then he let go and sank. There is terrible damage done by the sea from a mile north of the

bridge to Seabright. At the Normandie hall there is a building in the sea going to pieces. The whole beach from Seabright for three miles north is under water. Wind has been blowing a gale from the east and it is thick and snowing. Telegraph poles are down north and south of the Highlands on the hearth. The charter at the Highlands on the beach. The observer at the High-lands says that this is the worst storm he

ever saw. A blinding snow storm prevailed at the time, and rendered it difficult to obtain the facts in either case. It is known however that another vessel, supposed to be a large schooner, has been wrecked

off Squan. The second vessel ashore is also said to have lost her entire crew of twelve men, and both vessels have become complete wrecks.

Life Saving Crews. The crews of the Sandy Hook, Squan and Long Branch life saving stations, put out to the assistance of the disabled vessels as soon as they were reported ashore, but it is not known that a single life has been saved, as the furious sea is running and the blinding snow is pre venting any effective work upon the part

of the life savers.
Several transatlantic steamers are due to arrive today. The White Star liner Majestic should have been in at an early hour this morning, also the freighter Tauric of the same line. All these steamers will no doubt put

TO TINKER THEIR MONEY. Goldbugs Are Going to Get San Domingo

Into Their Clutches. NEW YORK, April 11 .- The officials of the San Domingo Improvement compaly who left here February 22 for the sland are back again.

These gentlemen, aside from the work of improvement in the way of railroad construction, etc., were chiefly interested in the question of the improvement and solution of the currency question in San Domingo, upon which subject they went to confer with President Heureaux and his ministers.

The result has been the preparation of a law to be submitted to the congress of San Domingo which will prepare for currency on a gold basis on and after June 1, next, instead of the present currency, that of Mexican silver dollars. The new currency will be in gold dollars of the precise weight and fine-ness of the United States coin. The silver dollar which will be coined will be of greater value, intrinsically, than the American dollar, in that

ion of the law which is of the utmost value is this: "All dollars and other silver coins, provided they have the weight and fineness which is indicated in the monetary law, shall be exchangeable at their face value for Dominion gold coins in sums less

it will contain 71-2 grains more silver than the American dollar. The provis-

Washington, April 11.—President Palmer of the World's fair national commission is conferring with members of the senate and house appropriation committee relative to reimbursing the French exhibitors at the exposition for \$70,000 loss by fire. Mr. Palmer also wants \$10,000 for closing up the work of the national commission, but he is willing to waive this if the foreigners are reimbursed.

Efforts will be made to include in one item the appropriation bills.

HOKE SMITH'S PLAN Concerning the Kickapoo Lands Opposed by Every Man in Oklahoma.

OKLAHOMA CITY, Ok., April 11 .- Only twelve more days remain in which the Kickapoos, voluntarily take their allot-There are about 100 who refuse ance. There are to select lands.

When all the Indians are provided there will remain a very large amount of land open to white settlement. The Kickapoo reservation has long been regarded as the garden spot of Okla-homa. The proposal of Secretary Hoke Smith to sell these lands to the highest bidder is bitterly opposed by every resident of Oklahoma. Meetings are being

held protesting against the plan.

A MOULDY OLD CLAIM.

Scares the Residents of Hot Springs Nearly Out of Their Wits.

Hor Springs, Ark., April 11 .- The good citizens of Hot Springs are begin-ning to realize that there is a strong likelihood unless desperate measures are taken, that the renowned springs of this place will pass from government con-trol into the hands of a private corpora-

The immediate cause of all this flurry was the receipt of a telegram frem Con-gressman Breckinridge in which he said that unless the people of Hot Springs stirred themselves, that the Boatner bill would become a law and the Hot Springs would pass from government control into the hands of the heirs of Don Juan Filpol together with a large and choice assortment of city property

now held by private parties.

The claim embodied in the Boatner bill, is made by the heir of Don Juan Filpol patent granted to that grandes by the Spanish government in the early part of this century, by which Don Juan was given a square league of ground, embracing what is now the government reservation and the best business and residence proportion of the city. When the "Louisiana purchase" was turned over to the United States government eighty years or so ago, it was with the proviso that all claims based on patents issued by the Spanish government should be protected. In the early sixties the government gave an opportunity to all claimants to come forward and establish title under the proviso, but the Filpol claim was not presented.

BANK TAX REPEAL.

Bill to Which Repeal Amendment Will be

Made Favorably Acted On. Washington, April 11.—The Brawley bill to which amendment for the repeal of the state bank tax, is to be offered in accordance with the action of the caucus has been favorably acted upon by the committee on banking and currency, but

it has not yet been reported to the house. The reports from the banking and currency committee are privileged under the rules but if they go to the calendar they lose their privileged character. Mr. Springer, chairman of the commit-tee, is therefore holding the report and

will not make it until the house is ready

to proceed to its consideration. It is

not the intention of the Democratic leaders to displace the appropriation bill in order to do this.

The house will proceed with these bills and when they are disposed of, the Brawley bill will be called up and the state bank tax repeal amendment will be offered, probably by Mr. Culberson of Texas, author of the caucus resolution.

GIVEN A BLACK EYE. The Government Report Gives Wheat a

Hard Blow. NEW YORK, April 11 .- The government report has given the wheat market a black eye today. The condition of win-ter wheat is 87.7 against expectations yesterday of 85 or 86, and this started out the lot of long wheat which had been picked up on the recent advance. At noon prices were 4½ cents below the highest figure recently touched and within one half cent of the lowest it ever sold at. All of the activity has dis-Beach has been washed out. The waves were so strong that the iron rails were the markets returning to the narrow rule to which it was forced by the long suc cession of bear raids up to within a few

PLENTY OF WATER.

Abundance of Water For Canal Between Lake Superior and Mississippi. St. Paul, April 11.—The committee of the chamber of commerce having in charge the matter of proposed ship canal between lake Superior and the Mississippi called on Prof. Winchell, state geologist, for information on the water supply for the eastern end of the

ship canal.

tract of lake country of ten square miles and convenient for use which has water, "abundantly sufficient to feed the canal on the divide and at all lower stations of course there is still more water available from the larger streams."

A letter just received from Prof.

Winchell addressed to Washington, states

that the probable route of the canal is a

The house committee expects to report tomorrow on the bill for a survey of the proposed canal.
